## ELLE Escapes: Miami

Miami draws sun seekers year-round, but the coastal metropolis becomes a cultural roost when the ultimate influx of sports fans, partygoers, and cognoscente flock there from around the world for the multi-day fête that is Formula 1. The so-called Magic City plays host to a constellation of celebrity performances, sophisticated dining, and star-studded parties that have cemented F1 as one of the most talked-about events on the world stage. Not many destinations can strike the perfect balance of revelry and serenity like Miami can. With that in mind, here's a guide for where to stay, indulge, and what to see, whether you want to hit the party circuit or sink your toes into the sand.

#### The Living Room

COURTESY FAENA MIAMI BEACH

Designed in part by Hollywood luminary Baz Luhrmann, [Faena Miami Beach](#) is pure decadence, from the Argentine murals that flank the lobby to the candy-striped lido deck and Art Deco-inspired suites. The Living Room bar in particular is the see-and-be-seen locale for late-night drinks, with live bands on rotation throughout the week. And before you head out, make sure to venture through the back for a quick photo next to the colossal 24-karat gold Damien Hirst mammoth, because if you don't, were you ever really in Miami?
