Faena Hotel, Miami Beach, Florida

At Faena Hotel Miami Beach, you'll experience more than just the convergence of city and beach. The modern property is also an entryway into the area's noteworthy art scene through both its location and décor. Situated in the Faena District, known for its distinctive modern architecture and bright white buildings, the hotel is home to two large sculptures by English artist Damien Hirst—the most recognizable piece, a gilded woolly mammoth skeleton titled "Gone but not Forgotten," is currently on display on the resort's grounds. Just as noteworthy? The symmetrical, red umbrella-lined pool, private beach access, and award-winning restaurants.
